Profile

Entry-level Software Engineering student with hands-on experience in developing real-time and web-based applications using Java, Spring Boot, Django, and JavaScript. Strong foundation in clean coding practices and the software development lifecycle. Seeking an entry-level Software Engineer role.

Education

B.Tech in Computer Science & Engineering (AI & ML), Vels University 2022 – 2026

- CGPA: 8.9 / 10

Higher Secondary, A.V. Meiyappan Higher Secondary School 2020 – 2022

- PERCENTAGE: 83%

Projects

Online Xerox Service Platform github

- Developed a web-based platform that allows users to upload documents, select print options, and place Xerox orders online.
- Implemented user authentication, order management, and secure file handling to streamline the printing workflow.
- Tools Used: Java, Spring Boot, HTML, CSS, JavaScript, MySQL.

YouTube Captions to Sign Language (Browser Extension) github

- Built a real-time browser extension that converts YouTube captions into animated sign language using a Django backend, improving accessibility for hearing-impaired users
- Tools Used: Django backend, JavaScript extension, YouTube API, JavaScript, HTML, CSS.

Expense Tracker with Pie Chart github

- Developed a responsive expense tracker enabling real-time add/edit/delete of transactions and integrated an interactive Pie Chart to visualize spending distribution.
- Tools Used: HTML, CSS, JavaScript, Chart.js.

Technical Skills

Languages: Java, Python, JavaScript, SQL

Frameworks & Tools: Spring Boot, Django, REST APIs, Chart.js, Git, GitHub, VS Code

Databases: MySQL
