

DHANUSH K

ghanush04k11@gmail.com | +91 9092078452 | Chennai, Tamil Nadu

EDUCATION

B.E(Computer Science And Engineering)

Vels Institute of Science, Technology & Advanced Studies

CGPA: 8.71

High Secondary

Vivekananda Vidyalaya Matric. Hr. Sec. School

Percentage: 87%

June 2022 - Present

Chennai, Tamil Nadu

June 2021- May 2022

Arakkonam, Tamil Nadu

SUMMARY

A passionate computer science and engineering student with a solid foundation in programming languages (Java, C, Python) and knowledge of web development including HTML, CSS, Javascript, Spring MVC, Spring Boot, and React Js and machine learning. Skilled in building responsive websites, deploying ML models, analyzing datasets and Creation of UserInterface using Figma.

SKILLS

- Programming Languages : Java, C, Python
- Libraries/Frameworks : Spring MVC, Spring Boot(Intermediate level), ReactJS(Basics), RestAPI
- Databases : Mysql
- Web Development : HTML, CSS, Javascript(Basics)
- Tools : Figma, Postman

INTERNSHIP

- Attended at **One Yes Info Tech** as a **Java Developer Intern**

PROJECTS

- **AI Powered Resume Screening System** SpringBoot(Java), Python, ReactJS
Developed an AI Powered Resume Screening System using Spring Boot, FastAPI, React.js, and MySQL, integrating NLP models. The system automates the screening process by extracting key skills, experience, and qualifications from resumes, enabling recruiters to efficiently shortlist candidates.
- **Object Recognition** OpenCV(cv2)
Built an object recognition system using OpenCV (cv2) to detect and classify various objects in real-time. The system utilizes image processing techniques and machine learning models for accurate object identification.
- **Student Management System** MySQL, Tkinter
Developed a Student Management System using Tkinter for the user interface and MySQL for database management. The system allows for efficient handling of student records, including adding, updating, and deleting student information

CERTIFICATIONS

- International Conference on Global Trend in Engineering and Technological Advancement(ICGTETA'25)- vipsTech
- AWS Cloud - Netstack Technology Solutions.
- HTML5 & CSS3 Complete D Course: Build Websites like a Pro - Udemy.
- Deep Learning with PyTorch – InLustro

ACHIEVEMENTS

Participated in Smart India Hackathon(SIH)-2023

Participated in International Conference at Gojan Institution-2025
