SUMMARY

A passionate computer science and engineering student with a solid foundation in programming language (Python) and knowledge of web development including HTML, CSS, Javascript . Skilled in building responsive websitesWith a strong grasp of programming fundamentals, logical thinking, and a growing passion for real-world tech solutions. Ready to bring energy, curiosity, and a fresh perspective to a team that values innovation and growth.

SKILLS

- Programming Languages : Python
- Databases : Mysql
- Web Development : HTML, CSS,Javascript
- Soft Skills : Communication, Leadership,Team Collaboration

INTERNSHIP

- Attended at **CODTECH IT SOLUTIONS** In **Python Programming**

PROJECTS

• Visio Aid

OpenCV(cv2), YOLOv5

Built an AI-powered assistive tool that provides real-time object detection and accessibility support.

Leveraged Python, OpenCV, and YOLOv5 for computer vision and integrated accessibility features to enhance usability and impact.

• OTT Analysis System

HTML,CSS,JavaScript

Developed an OTT Analysis System using HTML, CSS, and JavaScript for analyzing and visualizing OTT platform data. Implemented interactive dashboards to track user engagement, content trends, and viewing patterns. The system helps in deriving insights to support decision-making and improve content strategies.

CERTIFICATIONS

- Oracle cloud infrastructure generative AI certified professional - oracle university.
- Alibaba Cloud Certification

ACHIEVEMENTS

- Typewriting (Junior Level) – First Class
- Participated in Smart India Hackathon(SIH)-2025
